Unternehmensberatung

Dr. Stahl

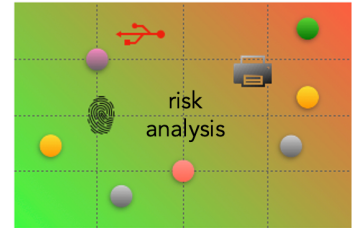

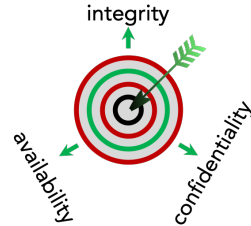

Information security is not a matter of luck, but a result
of a successful risk management!

Information security according to ISO/IEC 27001 and VDA-ISA/TISAX®

Have you done everything to ensure that
your information are always available and
up-to-date, cannot be manipulated, are
not lost or fall into wrong hands?

Internal and external threats

Your added value:

- ✓ Avoidance of economic damage and
- ✓ Minimisation of risks from internal and external threats
- ✓ Holistic approach to maintaining availability, confidentiality and integrity of your information
